

GME'S QUALITY AND ENVIRONMENTAL POLICY

GARCÍA-MUNTE ENERGIA S.L.'s objective is to offer innovating high-quality energy solutions that respect the environment through an efficient, safe and professional service.

Our aim is to contribute to the sustainable development of the sector in any part of the world. We therefore work according to certain strict values based on experience, humility, involvement, commitment and communication.

Our strategic targets are based on this Management Policy, the main aim of which allows us to achieve our objective, fulfil our customers' expectations and find solutions for all the parties concerned in our organisation.

For such purpose, we focus our efforts on the following:

- An analysis of the context and needs of the parties concerned to draw up their Strategic Plan and annual targets.
- Management of risks and opportunities so that we can be pro-active when dealing with opportunities and threats.
- Management of the type, dimension and environmental impact of their activities, products and services.
- The relevant change management to ensure we are flexible and provide trust when faced with an uncertain environment, including fulfilment of the legal requirements and those of any other kind.
- The approach to processes and ongoing improvement to increase the efficiency of the Integrated Management System, the quality of our service and our environmental efforts, determining the controls needed when internal/external resources are received, in the process in itself and in the output thereof.
- The approach to protecting the environment, including prevention of pollution, sustainable use of resources, minimising waste and atmospheric emissions and protection of the biodiversity and ecosystems involved in our work.

GARCÍA-MUNTE ENERGIA S.L. undertakes to regularly review this Quality and Environmental Policy, notify it to the whole organisation, ensure its fulfilment and make it available to all the persons, organisations or enterprises that could affect or could be affected by our company's work.
